Dear Stein,

Enclosed is the Groundwater Outreach Report that documents work accomplished under U.S. Bureau of Reclamation Order for Supplies and Services 1425-96-PG-20-12280 and subsequent amendments for the period August 19, 1996 through September 30, 1997. The report includes a summary of outreach activities, stakeholder concerns, draft principles for conjunctive use projects, and preliminary mitigation strategies. Also included are copies of contact memoranda and workshop attendance lists.

Please call me if you have any questions regarding my report. I look forward to working with you on the next phase of this program.

Sincerely,

Anthony Saracino
